

QuAD IP65 T5

Features:

Best value multi-tube IP65 T5 fitting for warehousing and production applications. Provided with add-on sensor provision. Uses latest T5 lamp options.

With two long life HF electronic ballasts, one lamp failure doesn't turn off the fitting.

Incorporates Vita Energia Solutions high spec efficient reflector system to maximise light delivery to the work area, greater than simpler design products and for maximum energy efficiency.

T5 tubes are instant on/off and available in a range of colour temperatures.

Construction:

Plastic Body
Polycarbonate cover
High performance MIRO 5 reflectors

Range:

- QuAD 120 – 4*28W, 4*54W T5
- QuAD 150 - 4*35W, 4*49W, 4*80W T5

Options:

- Install with PIR sensor with built-in photo cell with on / off control. Typically used: CP Electronics Hi-Sense Presence Detector or EBDSPiR- HB PIR
- Dimmable ballasts
- 3hr Emergency lighting kit
